AUSTRALIAN RANKING LISTS 1968-69	24
OFFICERS OF THE UNION 1897-1969	53

This Almanac has been compiled on behalf of the Amateur Athletic Union of Australia by Arthur Hodsdon and Thomas Houghton with the assistance from the Ranking List Officers of the Members Associations.

AUSTRALIAN CHAMPIONSHIPS 1968 - 69

The 1968 Marathon Championship of Australia was held at Hobart on the 25th May over an undulating out and back course, with the start and finish at the Elwick showground. The weather was cold with a north wind and a temperature of around 49o Fahrenheit. There were 35 starters of whom 29 finished the race.

Toowoomba, which is 80 miles west of Brisbane was the venue on the same date as the Marathon of the biennial 50 Kilometres Road Walk Championship of Australia. The weather was cold with a blustery west wind. The locality of Toowoomba is hilly and the 10 Kilometres circuit used for the Championships was the flattest that could be found. Of the 21 starters, 15 completed the course.

A 20 Kilometres Road Walk Olympic Trial - it was not a Championship - was held in fine weather at Centennial Park, Sydney on the 4th May.

The 1969 Track and Field (including the Decathlon) Championships of Australia were conducted as an experimental three day programme on March 28th, 29th and 30th at Olympic Park, Melbourne. The weather on the first two days was almost ideally warm and sunny, but heavy rain on the morning of the final day, followed by intermittent showers throughout the afternoon ruined a promising meeting. However, the conventional cinder track was in poor condition, even before the Sunday rain.

AUSTRALIAN RANKING LISTS FOR 1968 - 69

The listings which follow cover the period from April 1st, 1968 to March 31st, 1969. Wind assisted performances in the events referred to in I.A.A.F. Rule 148 (4) (g), have been as far as possible excluded.

Each list shows the Ten Best Performances in the event. The number of individual athletes may thus vary from one to ten; or possibly more. Sufficient further individual performances are listed to bring the number of athletes to (in most cases) at least twenty. Thus each list shows the Ten Best Performances and the Twenty (in some cases Ten) Best Performers in the event.

In those cases where a Ranked Performance, other than one coming within the Ten Best Performances, has been later equalled during the period by the same athlete, only the Original Performance has been listed.

Last year's procedure of converting actual times for English distances to theoretical times for the corresponding metric distances has been maintained, because it is felt that in this way a more significant picture of our depth in these events, and of the trend of our standards, is obtained. As earlier mentioned, it is unfortunate - at any rate, from the standpoint of the athletics statistician - that our largest and strongest Association has elected so far not to switch to metric distances for its main competitions. The conversion formula adopted for each brace of events to achieve the desired consolidation is explained in short headnotes as required. Derived metric times are followed in each case, in parenthesis, by the actual time for the English distance from which the derived time has been calculated. This latter procedure has not been followed, however, in the case of those events where a uniform conversion factor is applied to all of the times.

100 METRES

The letter 'Y' affixed to a time in the following table signifies that it is an actual time for 100 yards plus a factor of 0.9 to adjust to 100 metres.

NOTES: (1) 1950-51 Points were scored from the 1934 tables, 1951-52 to 1963-64 from the 1950 Tables, and 1964-65 from the 1962 Tables. Full information for conversion of all scores to a common basis is not available. However, the performances of J.F. O'Neill (Best) and K. Grimm (10th), if scored on the 1950

tables, would give totals of 6233 and 5140 points respectively.

(2) Leane in 1953-54, Cann in 1955-56, and Sumich in 1963-64 each had some wind assistance in the 100 Metres, Long Jump and 110 Metres Hurdles.

AN EXPLANATION

Associated with the operation of printing this edition of the Union's Almanac were a mass of careless typographical errors, an equally careless correction operation, and a series of incredible time lags extending over more than five months. These unfortunate happenings were not our fault, and due care will be taken that they are not repeated.
