| AUSTRALIAN CHAMPIONSHIPS 1969-70 |
|----------------------------------|

Centennial Park, Sydney, was the venue for the 1969, 20 Kilo metre Road Walking Championship of Australia which was held on the 17th May. The 24 starters faced conditions which were fine but cool with strong gusty westerly winds. The course was completed by 20 of the athletes who were also aiming for the Commonwealth Games trial to be held later in the season. The Trial, conducted over a 20 Mile course as will be the race at Edinburgh, was conducted Albert Park, Melbourne, on the 30th August. The event, which was not a championship, was contested by 16 race walkers.

The 1969 10,000 Metres Cross-Country Championship of Australia was held in the Brisbane suburb of Redcliffe on July 26th. The race was run on a "speed" course over two circuits of 5,000 Metres and unseasonably warm conditions prevailed. For the first time an Australian 10,000 Metres Junior Cross-Country Championship was held and this attracted 26 entries of whom 22 finished the race. In the senior event 38 runners were entered while 36 completed the set course.

Sydney was again the venue for a 1969 winter season Championship when the Marathon Championship of Australia was held on October 11th using the new Hensley Athletic Field as the start and finish. The weather was cool with light rain falling throughout the first half of the race. Of 42 entries only 23 completed the course, a fairly high failure rate even for a test of this grueling nature.

Again, the 1970 Track and Field Championships included the decathlon in the experimental three day programme carried over from last year. The venue was the Olympic Sports Field, Adelaide, on March 20th, 21st and 22nd. The weather was quite inclement with intermittent rain falling throughout the latter two days after a heavy storm struck half-way through the first day's competition. As well a prevailing southerly wind provided stiff opposition for all runners, particularly the sprinters who ran into it during the straight-away events. In spite of all this the rubberized bitumen track surface offered a consistent footing for the runners and the overall standard in all events was high.

AUSTRALIAN INTERNATIONAL RECORDS

At its 1969 Annual Conference, the Amateur Athletic Union of Australia decided to create an official list of what are designated Australian International Records. An Australian International Record is one established under I.A.A.F. Rules in a country other than Australia by an athlete who was either born in Australia or who has resided in Australia for at least three years prior to the date of the performance claimed as a record, provided that such performance must be equal or superior to the corresponding Australian National Record.

| AUSTRALIAN RAN. ING LISTS FOR 1969-70 |
|---------------------------------------|

The listings which follow cover the period from April 1st, 1969 to March 31st, 1970. Wind assisted performances in the events referred to in I.A.A.F. Rule 140 (4) (g), have been as far as possible excluded.

Each list shows the Ten Best Performances in the event. The number of individual athletes may thus vary from one to ten; or possibly more. Sufficient further individual performances are listed to bring the number of athletes to (in most cases) at least twenty. Thus each list shows the Ten Best Performances and the Twenty (In some cases Ten) Best Performers in the event.

In those cases where a Ranked Performance, other than one coming within the Ten Best Performances, has been later equalled during the period by the same athlete, only the Original Performance has been listed.

Last year's procedure of converting actual times for English distances to theoretical times for the corresponding metric distances has been maintained, because it is felt that in this way a more significant picture of our depth in these events, and of the trend of our standards, is obtained. As earlier mentioned, it is unfortunate - at any rate, from the standpoint of the athletics statistician - that our largest and strongest Association has elected so far not to switch to metric distances for its main competitions. The conversion formula adopted for each brace of events to achieve the desired consolidation is explained in short headnotes as required. Derived metric times are followed in each case, in parenthesis, by the actual time for the English distance from which the derived time has been calculated. This latter procedure has not been followed, however, in the case of those events where a uniform conversion factor is applied to all of the times.

PERFORMANCES MADE OUTSIDE AUSTRALIA

Performances made by Australian Athletes temporarily residing abroad or on tour during the period 1/4/67 to 31/3/70 are listed below.

Only such marks are listed in Group A (Australian Championship Events) as would have ranked, if made in Australia, among the Ten Best Performances, or as would have ranked the athlete among the twenty Best Performers.
