AUSTRALIAN CHAMPIONSHIPS 1970-71
----------------------------------

The 1970 20 Kilometres Road Walk Championship of Australia was held on the 29th August on a circuit of 1 mile 252 yards at Botanic Park, Adelaide. Intermittent rain marred the race, and the day's maximum temperature was 55.5°F at 1.20 p.m.

Albert Park, Melbourne was the venue on September 26th 1970 of the 50 Kilometres Road Walk Championship of Australia. The race started at 10 a.m., and the course was a circuit of 5010 metres. The weather early was cool and sunny, with no wind. Competitors were inconvenienced during the second half of the race by a chill breeze.

On the same day the Marathon Championship of Australia was held with the start and finish at Owerside Park, Werribee, a rural district some 20 miles from Melbourne. The course was a flat one with a maximum elevation of 30', and the weather was fine and sunny with a cool breeze and a temperature of approximately 62°F.

The 1971 Track and Field Championships of Australia were conducted over three days (March 12th, 13th and 14th) at Lang Park, Brisbane. The weather was generally fine, with overnight showers and light rain early in the afternoon of the final day. The wind blew across the track, and this was a disadvantage to the sprinters but slightly favoured the long and triple jumpers. A sustained wet period immediately prior to the Meeting had made the preparation of the grass surface difficult, and this undoubtedly slowed the times on this normally fast track..... Lang Park lacks steepchase facilities, and these events were held on a slow track at University Oval, St. Lucia. The run-up at Lang Park for the Long and Triple jumps was of grass-turf. It was necessary to conduct the hammer throws off the main arena.

AUSTRALIAN INTERNATIONAL RECORDS

At its 1969 Annual Conference, the Amateur Athletic Union of Australia decided to create an official list of what are designated Australian International Records. An Australian International Record is one established under I.A.A.F. Rules in a country other than Australia by an athlete who was either born in Australia or who has resided in Australia for at least three years prior to the date of the performance claimed as a record, provided that such performance must be equal or superior to the corresponding Australian National Record.

BEST-ON-RECORD FOR NON-RECORD EVENTS

The times given below are the best recorded by Australian athletes for the Marathon and for the two Olympic Road Walks:

(a) In Australia

Marathon 2-14-47.8 D.J. Clayton (Victoria) on 25.5.68 at Hobart Tasmania (17.11.42)  
20 Kilometres Road Walk: 1-29-12.0 N.F. Freeman (Victoria) on 6.4.68 at Albert Park, East Melbourne,  
Victoria (24.12.38)  
50 Kilometres Road Walk: 4-18-20.4 R.O. Gardiner (Victoria) on 24.9.66 at Melbourne, Victoria (22.3.36)

(b) Overseas

Marathon † 2-08-33.6 D.J. Clayton (Victoria) on 30.5.69 at Antwerp, Belgium (17.11.42)  
50 Kilometres Road Walk: 4-17-06.8 R.O. Gardiner (Victoria) on 18.10.64 at Tokyo, Japan (22.3.36)

† The correctness of the distance in this race is at present in doubt, and substitution of the following may become necessary.

2-09-36.4 D.J. Clayton (Victoria) on 3.12.67 at Fukuoka City, Japan (17.11.42)

AUSTRALIAN RANKING LISTS FOR 1970-71
--------------------------------------

The listings which follow cover the period from April 1st, 1970 to March 31st, 1971. Wind assisted performances in the events referred to in I.A.A.F. Rule 14B(4)(g), have been as far as possible excluded.

Each list shows the Ten Best Performances in the event. The number of individual athletes may thus vary from one to ten; or possibly more. Sufficient further individual performances are listed to bring the number of athletes to (in most cases) at least twenty. Thus each list shows the Ten Best Performances and the Twenty (in some cases Ten) Best Performers in the event.

In those cases where a Ranked Performance, other than one coming within the Ten Best performances, has been later equalled during the period by the same athlete, only the Original Performance has been listed.

Last year's procedure of converting actual times for English distances to theoretical times for the corresponding metric distances has been maintained, because it is felt that in this way a more significant picture of our depth in these events, and of the trend of our standards, is obtained. As earlier mentioned, it is unfortunate - at any rate, from the standpoint of the athletics statistician - that our largest and strongest Association has elected so far not to switch to metric distances for its main competitions. The conversion formula adopted for each brace of events to achieve the desired consolidation is explained in short headnotes as required. Derived metric times are followed in each case, in parenthesis, by the actual time for the English distance from which the derived time has been calculated. This latter procedure has not been followed, however, in the case of those events where a uniform conversion factor is applied to all of the times.

100 METRES
------------

The letter 'Y' affixed to a time in the following table signifies that it is an actual time for 100 yards plus a factor of 0.9 to adjust to 100 Metres.
