# AUSTRALIAN CHAMPIONSHIPS 1971-72

The 1971 10,000 Metres Cross-Country Championships of Australia were held on August 21st 1971 on a circuit of 5000 Metres at Sydney's Macquarie University. The course was a severe one with several hills and two creek crossings on each lap. A severe thunderstorm on the morning of the race made it necessary to modify the course.

The Australian 50 Kilometres Road Walk Championship was held at Centennial Park, Sydney on the 25th September 1971. The weather was overcast and humid, and this militated against fast times. The course was a 5 Kilometres circuit which was traversed ten times.

On the same day the Marathon Championship of Australia was held with the start and finish at the Royal Elwick Showgrounds, Hobart. The course was an undulating one. The weather was fine. On the outward stage there was no wind, but towards the finish the runners had to contend with an opposing southerly breeze.

The 1972 Track and Field Championships of Australia were conducted over five consecutive days, March 22-26, at Perry Lakes Stadium, Floreat Park, Western Australia. The championships for men and women were held together for the first time since 1932. On the first three days the weather was fine and warm, and generally conducive to good performances. Towards the close of the third day the wind changed, and thereafter sprinters were hampered by a strong and rather cool headwind.

AUSTRALIAN INTERNATIONAL RECORDS
----------------------------------

At its 1969 Annual Conference, the Amateur Athletic Union of Australia decided to create an official list of what are Designated Australian International Records. An Australian International Record is one established under I.A.A.F. Rules in a country other than Australia by an athlete who was either born in Australia or who has resided in Australia for at least three years prior to the date of the performance claimed as a record, provided that such performance must be equal or superior to the corresponding Australian National Record.

## AUSTRALIAN RANKING LISTS FOR 1971-72

The listings which follow cover the period from April 1st, 1971 to March 31st, 1972. Wind assisted performances in the events referred to in I.A.A.F. Rule 146(4)(g), have been as far as possible excluded.

Each list shows the Ten Best Performances in the event. The number of Individual athletes may thus vary from one to ten; or possibly more. Sufficient further individual performances are listed to bring the number of athletes to (in most cases) at least twenty. Thus each list shows the Ten Best Performances and the Twenty (in some cases Ten) Best Performers in the event.

In those cases where a Ranked Performance, other than one coming within the Ten Best Performances, has been later equalled during the period by the same athlete, only the Original Performance has been listed.

Last year's procedure of converting actual times for English distances to theoretical times for the corresponding metric distances has been maintained, because it is felt that in this way a more significant picture of our depth in these events, and of the trend of our standards, is obtained. The conversion formula adopted for each brace of events to achieve the desired consolidation is explained in short headnotes as required. Derived metric times are followed in each case, in parenthesis, by the actual time for the English distance from which the derived time has been calculated. This latter procedure has not been followed, however, in the case of those events where a uniform conversion factor is applied to all of the times.

## 100 METRES

The letter 'Y' affixed to a time in the following table signifies that it is an actual time for 100 yards plus a factor of 0.9 to adjust to 100 Metres.
