| AUSTRALIAN CHAMPIONSHIPS 1973-74 |
|----------------------------------|

The 10,000 Metres Senior and Junior Cross-Country Championships of Australia were held on 7th July, 1973 from the Christian Brothers College Grounds at Bundoora, Victoria. The course comprised two circuits of a 5,000 Metres lap. It included undulating fields and a bagged fence which competitors cleared four times. The weather was cold and foggy.

Scarborough, Queensland was the venue, on August 11th, 1973, of the 50 Kilometres Road Walk Championship of Australia. The race commenced at 11 am, and the course was a circuit some 50 metres short of 5 Kilometres, with the start and finish adjacent to the De La Salle College. The weather conditions were good though a little warm for this type of event.

The Marathon Championship of Australia was held at Herne Hill on Saturday 8th September 1973. The course was east of the main Great Northern Highway and between the foothills of the Darling Ranges being on the whole quite flat. The weather conditions were good, cloudy with some odd showers and the temperature ranged from 18°C at the start falling to 16.1°C at the 15 mile mark and rising to 17.9°C at the 25 mile mark.

The 1974 Track and Field Championships were conducted over three consecutive days, March 29th to March 31st at Olympic Park Melbourne. The running track (which had just been completed) was the same as the one used at Christchurch in January, 1974 and is known commercially as "Chevron."

The weather was variable. On the first day it was overcast and rather cool; On the second day sunny and very pleasant; and on the third day overcast and humid. The wind was variable. Southerly on the first and second days thus opposing the sprinters, but on the third day it had changed to the North and this assisted the sprinters and junior long jumpers but hindered the senior triple jumpers.

| AUSTRALIAN INTERNATIONAL RECORDS |
|----------------------------------|

At its 1969 Annual Conference, the Amateur Athletic Union of Australia decided to create an official list of what are designated Australian International Records. An Australian International Record is one established under I.A.A.F. Rules in a country other than Australia by an athlete who was either born in Australia or who has resided in Australia for at least three years prior to the date of the performance claimed as a record, provided that such performance must be equal or superior to the corresponding Australian National Record.

| AUSTRALIAN RANKING LISTS FOR 1973-74 |
|--------------------------------------|

The listings which follow cover the period from April 1st, 1973 to March 31st, 1974. Wind assisted performances in the events referred to in I.A.A.F. Rule 148 (4)(g), have been as far as possible excluded.

Each list shows the Ten Best Performances in the event. The number of individual athletes may thus vary from one to ten; or possibly more. Sufficient further individual performances are listed to bring the number of athletes to (in most cases) at least twenty. Thus each list shows the Ten Best Performances and the Twenty (in some cases Ten) Best Performers in the event.

In those cases where a Ranked Performance, other than one coming within the Ten Best Performances, has been later equalled during the period by the same athlete, only the Original Performance has been listed.

Last year's procedure of converting actual times for English distances to theoretical times for the corresponding metric distances has been maintained, because it is felt that in this way a more significant picture of our depth in these events, and of the trend of our standards, is obtained. The conversion formula adopted for each brace of events to achieve the desired consolidation is explained in short headnotes as required. Derived metric times are followed in each case, in parenthesis, by the actual time for the English distance from which the derived time has been calculated. This latter procedure has not been followed, however, in the case of those events where a uniform conversion factor is applied to all of the times.
