AUSTRALIAN INTERNATIONAL RECORDS

At its 1969 Annual Conference, the Amateur Athletic Union of Australia decided to create an official list of what are designated Australian International Records. An Australian International Record is one established under I.A.A.F. Rules in a country other than Australia by an athlete who was either born in Australia or who has resided in Australia for at least three years prior to the date of the performance claimed as a record, provided that such performance must be equal or superior to the corresponding Australian National Record.

AUSTRALIAN ALL-TIME AND 1977-78 MEN'S RANKING LISTS

Because junior and sub-junior athletes commonly compete outside their own age groups, particularly in inter-club competition, it has been found impracticable to prepare accurate ranking lists for these groups.

The I.A.A.F. differential for manual timing versus automatic (electric) timing is .24 second for 100 metres, 200 metres and 110 metres hurdles. For 400 metres and 400 metres hurdles it is .14 second.

The all-time lists, which are predominantly manual timing, have any automatic times inserted in what would be their 'converted' manual time position i.e. .24 sec or .14 sec has been 'subtracted' to ascertain their position on the lists.
